

FRANKHAM RMS

Fire Safety Framework

Developed jointly by Hyde Group, Frankham, echelon Consultancy and Pretium. This framework is intended to ensure best practice, innovation and assurance are at the heart of Fire Safety Works undertaken by Hyde and other users. It was designed to be adaptable and capable of meeting the diverse and changing needs across the sectors in which it operates, covering the full range of specialist fire safety services. This framework will be going live in March 2019.

Like all other RPs, Hyde is investing significantly in fire safety related works and have engaged Frankham RMS, Devonshires, Echelon and Pretium to assist in developing a bespoke Framework to allow easier access to service providers to deliver fire safety related works.

The lots awarded under this framework are as follows:

- Fire Doors
- Fire Safety Signage
- Fire Alarm, Detection and Suppression Services
- Emergency Lighting
- Sprinklers
- Fire Proofing and Fire Stopping
- Electrical Inspection and Testing
- Cladding
- Incident Management and Business Continuity Planning
- Construction Manager

The main benefits of joining this framework:

- Access to the framework is instantaneous
- Framework developed by Hyde using expert specialist advice from the fire safety sector including Frankham RMS, BAFE, and FIRAS
- The framework is flexible in its offering.
- Users can make direct awards or undertake mini competitions
- No joining fee
- Access to specialist lots with direct access to expert contractors and installers

For more information on accessing this framework please email info@pretium.co.uk

Pretium is a specialist company established by echelon Consultancy to develop and manage frameworks on the behalf of Contracting Authorities operating in the public sector across the UK.
